You are asked to select electives from the list on the back and to place them in **ORDER OF PREFERENCE**. The College will design combinations of subjects to accommodate as many student choices as possible. In some cases the combinations will not accommodate all the student's choices. Therefore, it is important to list **at least two extra**, alternative subjects, again in order of preference.

The College reserves the right not to offer a class of uneconomic size. This could mean that a particular subject is not offered at all. More importantly, it could mean that numbers will be restricted to one class only, in which case admission will be at the College's discretion. Waiting lists will be used for those subjects for which there is a heavy demand.

STUDENT NAME:.....
