To conform to Occupational Health and Safety Requirements, students doing practical workshop subjects will be required to **provide their own eye and hearing protection** and **steelcap work boots**.

In addition to the above, students will be required to provide and bring to all practical classes, a suitable pencil and 5 metre retractable tape measure. Most vocational studies students involved in structured work placement will be required to supply the above whilst at work.

Certificate I in Construction

Strong A4 display folder with plastic sleeves.

2xHB pencils

Pocket notebook

5m retractable tape

2xblue pens

Certificate II in Engineering Pathways:

Strong A4 display folder with plastic sleeves.

Students will be required to have industry standard protective clothing as worn in the engineering work places. Many students wear sports uniform to school. This clothing does not provide adequate protection when operating industrial equipment.

Minimum protective clothing would be blue cotton overalls and leather school shoes or long blue cotton work trousers with a long sleeved blue cotton shirt. Compliant leather school shoes are adequate.
